Udaipur, Rajasthan | +91 8279233958 | ashishdadhiich@gmail.com | LinkedIn: ashish-dadheech-5119041a9

PROFESSIONAL SUMMARY

B.Tech Computer Science graduate with hands-on experience in software projects, research analysis, data handling, web technologies, and technical problem solving. Strong foundation in computer systems, web applications, databases, and troubleshooting-oriented thinking. Seeking an Engineer / Tech Support role where I can support field teams, investigate technical issues, document solutions, and grow in a technical engineering environment.

CORE TECHNICAL SKILLS

Technical	HTML, CSS, JavaScript, React, Bootstrap, Tailwind CSS
Backend & Database	Node.js, Express.js, MySQL, MongoDB, REST APIs
Tools & Office	Microsoft Excel, Word, PowerPoint; web application deployment
Support-Relevant	Problem solving, issue analysis, documentation, system/application troubleshooting mindset

PROFESSIONAL EXPERIENCE

Research Analyst — AM Research

- Performed market research and analysis to identify industry trends and business opportunities.
- Collected and analyzed data from multiple sources to generate actionable insights and support reports.
- Prepared reports and presented key findings to stakeholders.
- Supported research methodologies and frameworks while collaborating with teams on research projects.

Trainee Associate — Fusion Business Solution Private Limited

- Assisted in daily operations and gained hands-on experience in business processes.
- Collaborated with senior associates on project management and process optimization.

Research Analyst — Growth Hub

- Gained practical exposure to professional workflows, team coordination, and business processes.

EDUCATION

Geetanjali Institute of Technical Studies — B.Tech, Computer Science

Sikar Academy Sr. Sec. School — Senior Secondary (12th), Science

LBS Sr. Sec. School — Secondary (10th)

PROJECTS

Food Delivery Web App — Full Stack Project

React.js, Node.js, Express.js, MongoDB, Tailwind CSS, REST APIs

- Built a full-stack food ordering application with authentication, restaurant/menu browsing, cart, order placement, and order history.
- Integrated REST APIs and designed a responsive interface for desktop and mobile users.
- Deployed the application using Netlify / Render.

Ultrastore E-commerce Website

MERN Stack, JWT

- Developed a full-stack e-commerce application using React.js, Node.js, Express.js, and MongoDB.
- Implemented authentication and authorization using JWT, along with product listing, search, filtering, cart, and checkout functionality.

CERTIFICATIONS

- Multi-Disciplinary Applications and Research Technology (ICMART-203)
- AlmaBetter Full Stack Web Development Course Certificate
